VDA Analysis Tools

A new evaluation and documentation tool have been developed as a web application for the current tools of the VDA 6.3, VDA 6.8, VDA 6.7, FFA.

Chinese, English, German, French, Czech, Spanish, Turkish, Hungarian, Italian, Polish, Portuguese, Swedish, Korean and Japanese language versions have been integrated to support use at an international level.

INTRODUCTION

We currently offer three kinds of audit tools for VDA 6.3, VDA 6.7, FFA and VDA 6.8:

Tool A: VDA Analysis Tools Version 2.0 (including VDA 6.3 Reports, VDA 6.7 Reports, Field Failure).

Tool B: Analysis Tool 2.0 - VDA 6.8 Full-License. If you are only interested in VDA 6.8 report and not VDA 6.3, VDA 6.7 and Field Failure (FFA) reports in Tool A, you can buy this tool.

Tool C: Analysis Tool 2.0 - VDA 6.8 Add-ons-License. The prerequisite for purchasing this tool is that you already have Tool A and are interested in VDA 6.8 auditing.

Note: The product will be run at web browser in your computer tablet and only communicates with the server to validate the license, your audit data will not be uploaded to any backend. Meanwhile have the chance to test our product. You can request a test license via <https://test.vda-qmc-tools.de>. The test license will be activated the first time you are using it. It remains valid for 28 days.
